

## Performing a reset

1. To unlock, press **Menu** for three seconds.
2. Press **Menu** once.

3. Move your finger clockwise around the scroll wheel until the bar is on **COMMISSIONING**. Then press **OK**

4. Move your finger clockwise around the scroll wheel again until the bar is on **"RESET"**. Then press **OK**.

5. Move your finger clockwise around the scroll wheel again until the bar is on **"HEAT PUMP"**. Then press **OK**.

6. The display shows a **"0"**.

7. Move your finger clockwise around the scroll wheel once again until a "1" is displayed. Then press **OK 4x times** (code 1000).

- The display shows **OFF**. Move your finger clockwise around the scroll wheel until **ON** is displayed.

Then press OK.

9. Press the "Menu" button until the start screen appears again.  
Alternatively, leave the settings as they are. The display will switch back automatically after a while.
